BUXCOMM KPC-RASCAL- TNCable-to-transceiver-LINKs.pdf © 1988 - 2019

PLEASE NOTE: Only the equipment "manufacturers" are in alphabetical order. The radio models are NOT in alpha/numerical order; **Sorting is by the first two numbers** (not letters) **in a specific transceiver model number.** Some transceivers have two separate input/output accessory jacks, and may use two or more different interfaces cable types. This list is the result of many years of research by G. E. "Buck" Rogers Sr, K4ABT, and are copyrighted by BUXCOMM and G E Rogers K4ABT 1986 –2017; ALL copyrights are held by BUXCOMM inc., and G E Rogers Sr, K4ABT.

The cable(s) from TNC or KPC/KAM, DB25 female to PC DB9 male serial comport, see Cat # [DB9FDB25M](#)
 The cable(s) from TNC or KPC/KAM, DB25 female to PC DB25 male serial comport, see Cat # [DB25FDB25M](#)

NOTICE: If your PC does not have a compatible Comport to match the comport of your TNC, KAM, or KPC, don't despair; [The BUXCOMM USB2SC is a USB to Serial Comport Converter](#) which fulfills this need without having to install a serial comport inside your PC.

When you locate the cat# for your specific cable, the number is also the BUXCOMM catalog number. We have composed this list to assist you, however; We are *not responsible for mistakes, omissions, or incorrect selection!*

Note 1 * When using a Kantronics KPC, KAM etc, be sure you read the section of your Kantronics manual that references "Carrier Detect" (cmd: CD). When the CD command is set to INTERNAL (default), the KPC/KAM will not allow transmit unless the radio squelch is closed. Setting the CD command to SoftWare (SW) will enable transmit data to be sent when the **Enter** key is pressed.

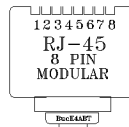

Note 2 ** Most transceivers with 6 pin Mini DIN data-jacks, regardless of make and/or model are all wired the same. This is due to the CCITT and IEEE finally agreeing to a (9001 & 9002) "standard." Therefore, if your transceiver utilizes a 6 pin Mini DIN, as a data input/output jack, chances are, it is wired and labeled the same as all 6 pin mini DIN data ports.

6 pin Mini DIN RJ45
